

Ricon Slide-Away™

PLATFORM LIFTS

The Slide-Away is a revolution in platform lift design, giving you strength and space in one easy to use package. When using the lift, the sliding second tower travels toward the front of the vehicle to provide the strength and stability only available in a dual post lift. When not in use, the sliding second tower travels towards the rear of the vehicle, leaving the side door unobstructed for able-bodied users and providing full use of the front passenger seat. The Slide-Away makes possible what you believed to be impossible.

ADVANTAGES:

- Provides unobstructed access through side cargo doors when lift is not in use
- Allows full use of front passenger seat
- Innovative dual post lift design
- Optional 800lb installation kits available for some applications
- Built in, easy-to-use, two step manual backup system

Imagine the possibilities

Fully stowed with clear side access

Sliding second tower

Dual post strength

Fully deployed

Full use of front passenger seat

Easy to use manual back-up

Innovative sliding base

User-friendly pendant

SLIDE-AWAY PLATFORM LIFT

Power..... electro-hydraulic
 Motor rating @ 12 volts DC..... 65.0 amp. avg/cycle, 1250 psi
 Hydraulic cylinders..... 2 ea, 1.5", power-up/gravity-down

Rated load capacity..... 800 lbs***
 Manual backup (up)..... hand pump
 Manual backup (down)..... pressure release valve
 Lift weight..... 360-390 lbs

DIMENSIONS (inches)

	A	B	C	D	E	F	G	H	*I	**J
